**ANC 3C Resolution No. 2016-039**  
**Resolution Regarding the District Department of Transportation**  
**Klinge Watershed Green Streets Initiative**

WHEREAS, the District Department of Transportation, (“DDOT”) made a presentation at a community meeting on its interest in creating bio-retention areas at various intersections, permeable paving in parking lanes on various blocks, and green alleys in various locations and followed up that meeting with a walking tour of the proposed sites on June 13, 2016; and

WHEREAS, many residential stakeholders attended the tour and expressed reservations about the practicality and safety of many of the proposed sites in ANC 3C SMD 09; and

WHEREAS, the Washington National Cathedral has raised concerns about the effect of bio-retention bump-outs at key intersections that have long been part of routes for Cathedral school pick-up and drop-off and where these features would cause traffic back-ups and congestion and potentially lead to safety issues; and

WHEREAS, residents who live adjacent to some of the locations have expressed to the ANC and to DDOT their objection to the proposal based on safety, congestion, air quality, and other effects; and

WHEREAS, permeable parking lanes will prevent burying of overhead utility wires, which ANC 3C has long advocated as a desirable action for the Cleveland Park neighborhood:

BE IT RESOLVED that ANC 3C opposes the installation of bio-retention bump-outs on Lowell Street NW, 36<sup>th</sup> Street NW, 35<sup>th</sup> Street NW, and Macomb Street NW;

BE IT RESOLVED that ANC 3C opposes the construction of permeable parking lanes on Woodley Road NW;

BE IT RESOLVED that ANC 3C understands that DDOT does not have any additional site locations in ANC 3C 09;

BE IT RESOLVED that the Chair and the Commission 3C09 are authorized to represent the commission on this matter.
