**ANC3C Resolution 2019-007**  
**Regarding Hearst Park and Pool Improvement Project**

Whereas, Hearst Recreation Center (Hearst Park) is approximately a four-acre park located at 37<sup>th</sup> Street, Idaho Avenue, and Quebec Street, NW, and Hearst Elementary, Hearst Playground, and Hearst Recreation Center Cottage at the northern boundary, and is contiguous or proximate to multiple residences included within the boundaries of ANC 3C; and

Whereas, Mayor Bowser's administration has prioritized the development of an efficient, effective, and transparent 21<sup>st</sup> century government; and

Whereas, community members were informed in a May 2019 community meeting that the Hearst Park and Pool Project would officially break ground in June 2019; and

Whereas, DPR provided the following timeline for closure of facilities: the field will close the week of June 3<sup>rd</sup>; the playground will close the week of July 8<sup>th</sup>; and the tennis courts will close in late July; and

Whereas, DPR advised that work on the pool segment of the project will commence soon after the closing of the tennis courts; and

Whereas, DPR advised that when construction begins, some parking will be temporarily removed on the park side of Idaho Avenue near Quebec Street; and

Whereas, DPR advised that once the construction entrance is in use on Idaho Avenue, there will be people directing traffic when vehicles enter the park; and

Whereas, while DPR has submitted a one-page traffic control plan to the community; and

Whereas, commissioners from 3C and 3F have requested the development of a construction management plan that includes community input and outreach on multiple occasions and have received no response; and

Whereas, critical questions regarding the project remain unanswered including ANC 3C's request for a traffic and parking study associated with the project; and

Whereas, ANC 3C formally submitted said request via a resolution dated September 2017 and a subsequent letter dated November 2018 as well as during in-person meetings with DPR and DPG representatives.

Now, therefore, be it resolved that ANC 3C urges that before work on the project begins:

- 1) DPR and DGS engage the community in the development of a Construction Management Plan.
- 2) DDOT work with the community on the development of a traffic management plan.

BE IT FURTHER RESOLVED that the Chair, the Commissioner for 3C05, and/or their designees are authorized to represent ANC 3C on this matter.
